- 18 Major Performance Record

Where one meets Tomorrow's Technologies,  
MYSCO gives us the to see Tomorrow

We promise to be a faithful partner of the customers.  
MYSCO would be your best partner by manufacturing and supplying of all forged products.  
Our mission is not just to create profit. We always think customer and our supplier's value.  
We want to be your partner with our abundant experience for supplying of forged products on  
Petrochemical, Gas, ship-building and Power plant industry.  
Our goal is growing together with our all related company.  
We promise to be the best competent company based on technology, man power and quality.

## + VISION

Leading Forging Supplier in the world

## + MYSCO CORE

## + HISTORY

- 2018**
  - **Jan**
    - Company name changed from Myung Sung Metal Co., Ltd. to MYSCO Co., Ltd.
    - Acquisition of Juchon plant
    - 5000Ton Press
    - 2000Ø RRM, 6000Ø Press
- 2017**
  - **Dec**
    - CPR certified
    - Qualified by K.O.C as an approved vendor
- 2015**
  - **Mar**
    - Move to new head office from Bonsan Plant to Juchon Plant
- 2013**
  - **Jun**
    - Company name and Corporate changed from BIM Co., Ltd. to Myung Sung Metal Co., Ltd.
- 2012**
  - **Oct**
    - PED 97/23/EC certified
- 2009**
  - **May**
    - Started operating 2,000Ton Press
  - **Jun**
    - Upgrading 500Ton press to 750 Ton press
    - Upgrading 1,800Ø RRM to 2,000Ø RRM
- 2008**
  - **Jun**
    - ISO 9001 Certified
    - Started Operating 1,800ØRRM
- 2007**
  - **Dec**
    - Construction of factory completed
    - Started Operating 500Ton press
- 2006**
  - **Aug**
    - Company established as a BIM Co., Ltd. at Bonsan factory

## Petrochemical Plants

12

· Heat Exchanger part · Connecting part · Driving Shaft part

MYSCO will become the engine of Korea's industrial growth." Dedicated to dominating the world industry, we will devote our full efforts to develop our facilities and technologies, and will realize our 100 year vision.

· Work Capability

Max(φ)	Weight(ton)
2,200	15

## Shipbuilding & Maritime Facility

13

· Engine part · Connecting part · Driving Shaft part

MYSCO support nuclear plants, large-scale vessels, heavy industries, and all industrial infrastructure, more than 10 years of accumulated knowledge in free forging. All the families that make up MYSCO are dedicated to exploring the world market by introducing our quality products to the world.

· Work Capability

Max(φ)	Weight(ton)
5,000	15

## The Iridescent sweat

To take another step over the top,  
MYSCO. Co., Ltd. will forward to develop technology and struggle to make  
our own valuable brand name for peculiar material.  
We will be the most reliable company by supplying of our high quality products based on  
confidence and Technology.

In the end, MYSCO. Co., Ltd. will stand out boldly and will be the hope of forging industry for the 21th century.
